

Registration Form for the 7th Equitarian Workshop

Saturday, January 21, 2017 – Saturday, January 28,

EQUITARIAN
INITIATIVE

The 7th Equitarian Workshop will again be based in the Osa Peninsula in the southeastern part of Costa Rica. This mountainous area is home to the Corcovado National Park, with lush jungle, tropical wildlife, and beautiful beaches. The Workshop is open to veterinarians, veterinary students, veterinary technicians and equine scientists, however, the number of participants is limited, so apply early if you are seriously interested.

Logistics:

Participants need to arrive in the San Jose airport by noon on Saturday, January 21, 2017. If a participant must arrive the day before, simple lodging near the airport will be arranged nearby, along with assistance in getting there. Travel from San Jose to the Osa Peninsula will be via a charter flight Saturday afternoon in a small plane. The scenery is spectacular. A brief orientation will be held Saturday evening on arrival.

The small town of Puerto Jimenez will be home base. Lodging will be dormitory style in a very simple venue. Some internet access is expected. Meals will also be very simple and prepared by local cooks. Vegetarian accommodations are planned.

The first day in Puerto Jimenez will be spent in the classroom, providing the beginning of the knowledge base and perspective needed for effective work in the rural communities. The instructors are leaders of Equitarian projects and have many years of experience in equine practice for the underserved. Two days of community service will be followed by a second classroom day with a more in-depth curriculum, followed by two more community service days. Informal case discussions will occur in the evening. The four communities with working horses, donkeys and mules are within an hour's drive of Puerto Jimenez. Travel to the communities is by local cattle truck, as the farmers have offered to transport us, our equipment, and supplies. The final morning will cover a discussion of questions related to the experiences and cases during the workshop plus suggestions for the next Workshop.

Participants should expect to work hard in tropical conditions, and live very simply as do the local people. There will likely be a little down time with the opportunity to swim at local beaches or waterfall.

On Saturday, January 28th, Workshop participants will return to the San Jose airport in the early afternoon. Depending on weather and destination, flights leaving Saturday evening may be feasible, however, it is safer to plan to stay over Saturday night and leave on Sunday. Of course, there are many beautiful places to see throughout Costa Rica, so consider some vacation time before or after the Workshop.

Continuing education credit approval will be sought from RACE. The preceding two workshops were RACE approved for over 30 CE credits. Individual state CE approval is an option as well.

The registration fee of \$850 includes all workshop meals, lodging, and transportation during the workshop. NOT included are alcoholic beverages and mandatory evacuation insurance (~\$25 depending on choice of policy).

Please contact Dr. Julie Wilson for more details or if you have any questions:

wilso011@umn.edu

Completed registrations should be sent to Dr. Wilson at Equitarian Initiative 110th St. N., Stillwater, MN 55082 along with a \$300 deposit. The deposit can also be made via PayPal at the email account above. Deposits are refundable until December 1, 2016. The remainder of the registration fee will be due December 1, 2016.

After the registration and deposit payment are received, participants will be asked to provide a picture and short paragraph to serve as introduction to the other Workshop participants. Other steps will include signing a waiver of liability, code of ethics and conduct, providing proof of evacuation insurance, and a copy of the photo page of your passport. No visa is necessary for American and Canadian citizens for travel to Costa Rica. Citizens of other countries should check Costa Rican regulations.

NEW for 2017:

Dr. Neil Gray would be leading an auxiliary week-long Equitarian project after the Workshop in another area of Costa Rica in conjunction with Costa Rica Equine Welfare. Workshop participants that are interested in an additional week of Equitarian work should contact Dr. Gray:

neil@ngraydvm.com for details and estimated costs. This project will also consider veterinarians that are unable to attend the Workshop.

7th EQUITARIAN WORKSHOP REGISTRATION FORM

**Please write legibly, or better yet, type in your information and answers.
You are welcome to use more than the space provided.**
